

SUBJECT INDEX - VOLUME 1

JOURNAL OF WOMEN AND MINORITIES IN SCIENCE AND ENGINEERING

Page Numbers for Issues:

Issue 1, 1-88; **Issue 2**, 89-173; **Issue 3**, 175-252; **Issue 4**, 253-351

- African American elementary students, interest in science, 17
- Attributes of scientific knowledge, 1
- Caucasian elementary students, interest in science, 17
- Chicano/a doctorates in the sciences, baccalaureate origins of, 253
- Computers
 - participation of elementary school girls with, 171
 - software, gender differentiation, 237
- Curriculum resources, female scientists, mathematicians and engineers, 209
- Education
 - engineering, minorities, 89
 - engineering, women's experiences in, 99, 123, 323
 - mathematics, elementary, girls, 171
 - mathematics, minority secondary students, 137
 - mathematics, women graduate students, attitudes and experiences, 63
 - mathematics, women undergraduates, 29, 175
 - physics, women graduate students, attitudes and experiences, 63
 - science, Chicano/a doctorates in, baccalaureate origins of, 253
 - science, curriculum resources, 209
 - science, elementary school girls, 17, 171
 - science, minority secondary students, 137
 - science, women undergraduate students, 29, 45, 175
 - science teachers, secondary, 153
- Employment
 - gender neutrality in workplace, scientists, 193
 - salaries, relationship between math study and, 309
- Engineering
 - Chicano/a doctorates in, baccalaureate origins of, 253
 - curriculum resources in, 209
 - education, minorities, 89
 - education, women's experiences in, 99, 123, 323
 - representation of women in, 99
- Feminist critiques of science, 1, 153
- Gender
 - attitudes toward science, high school students, 273
 - bias in science, 153
 - differences in science achievement, 9, 13 and 17 year olds, 221
 - differences in science interest, elementary students, 17

- ideology, 1
- issues, preparation of science teachers, 153
- natural history and, 165
- neutrality in workplace, scientists, 193
- Graduate students
 - mathematics, women's attitudes and experiences, 63
 - physics, women's attitudes and experiences, 63
- Harding, Sandra, "The 'Racial' Economy of Science", review essay, 165
- Intervention programs
 - confidence, perceptions of women undergraduate students, 175
 - engineering, women in university program, 123
 - faculty perceptions of women undergraduate students, 175
 - science and math, undergraduates, 29, 175
- Language, its' relation to science, 1
- Mathematics
 - and cultural values, 1
 - as language of science, 1
 - confidence, women, 45
 - curriculum resources, 209
 - education, 1
 - education, minority secondary students, high achieving, 137
 - women graduate students, attitudes and experiences, 63
 - gender differences in self-concept, undergraduate students, 291
 - salaries, relationship between math study and, 309
- Mentoring programs
 - engineering, women in university, 123
- Objectivity, 1
- Pedagogy
 - math, female undergraduates, 29, 175
 - science, 1, 29, 175
 - science elementary school girls, 17, 171
 - science teachers, preparation of, 153
 - science, women undergraduate students, 29, 175
- Physics, women graduate students, 63
- Race
 - differences in science achievement in 9, 13 and 17 year olds, 221
 - differences in science interest, elementary students, 17
- Rationality, 1
- Recruitment
 - in engineering, minorities, 89
- Retention
 - in engineering, minorities in, 89
 - in science, male and female undergraduate students, 45
 - in science, women in the workplace, 193

- Sanders, Jo, "Lifting the Barriers: 600 Strategies that Really Work to Increase Girls' Participation in Science, Mathematics and Computers", review essay, 171
- Schiebinger, Londa, "Nature's Body: Gender in the Making of Modern Science," review essay, 165
- Science
- achievement in, racial/ethnic and gender differences in 9, 13 and 17 year olds, 221
 - curriculum
 - female friendly, 29, 175
 - resources, 209
 - definition of careers in, 45
 - education, elementary, 17
 - education, minority secondary students, high achieving, 137
 - gender and "racial" economy, 165
 - gender differences, high school students attitudes, 273
 - representation of women in, 29
 - retention in, male and female undergraduate students, 45
 - persistence toward careers in, 45
 - preparation of undergraduate teachers in, 153
 - teaching, inquiry, 17
- Spatial conceptualization as culturally specific, 1
- Undergraduate students
- mathematics, women, 29, 175
 - retention in science programs, women, 45
 - science, women, 29, 45, 175
 - science teachers, preparation of, 153
