

INTERNATIONAL JOURNAL OF PHYSIOLOGY AND PATHOPHYSIOLOGY

CONTENTS, VOLUME 9, 2018

**Page Range of Issues – Issue 1: 1–97; Issue 2: 99–193; Issue 3: 195–286;
Issue 4: 287–375**

Issue 1

Psychophysiological Functions of Elite Athletes in Different Age Groups <i>L.G. Korobeynikova, M.U. Makarchuk, G.V. Korobeynikov, V.S. Mischenko, & O.V. Zapovitriana</i>	1
Doxorubicin-Induced Disturbances of Cardiomyocyte Contractile Activity <i>O. Linnik, T. Drevytska, K. Tarasova, G. Portnichenko, V. Dosenko, & I. Mankovska</i>	9
Effect of Germanium Citrate on Immunophysiological Activity of the Rats' Organism <i>R.S. Fedoruk, M.I. Khrabko, & O.P. Dolaychuk</i>	17
Modulation of Puberty Terms and Sexual Behavior of Rats after Prenatal Exposure to Methyldopa, Phenibut, and Stress <i>A.G. Reznikov & A.A. Limareva</i>	27
Activation of TRPV1 by Nitric Oxide Donors Requires Co-Application of Sulfhydryl-Containing Reagent <i>B.R. Sharopov & Y.M. Shuba</i>	37
Dependence of the Endocrine Function of Ischemic Ovarian Tissue Transplant on the Lipid Peroxidation Intensity <i>V.V. Kiroshka, Y.O. Bozhkova, I.A. Trutaieva, & A.A. Gawas</i>	47
Activation of Endogenous Hydrogen Sulfide Synthesis Inhibits Mitochondrial Permeability Transition Pore Opening and Restores Constitutive NO-Synthase Coupling in Old Rat Heart <i>L.A. Mys, N.A. Strutynska, V.R. Strutynskyi, & V.F. Sagach</i>	59
Incidence of Allelic Polymorphisms of Genes Encoding Subunits ATP-Sensitive Potassium Channels (Ile337→Val and Glu23→Lys KCNJ11 gene, and Ser1369→Ala ABCC8 gene) in the Ukrainian Population <i>R.B. Strutynskyi, R.A. Rovenets, O.V. Svarychevskyi, & V.E. Dosenko</i>	69
Serum Testosterone Levels in Statin Therapy for Patients with Diabetes and Hypertension <i>A.M. Jarari, S. Sri Kumar, W.M. El Sheriff, N.M.H. Aljarari, S.A. Shoaib, A.M. Zakoko, D. Fakruddin, M.G. Elfuturi, A. Vedangi, A. Argi, A.K. Rawal, Y. Min, A. Hussain, L.T. Peela, & J. Rao Peela</i>	77
Voltage-Gated Calcium Channels: Classification and Pharmacological Properties <i>O. Iegorova, O. Maximyuk, O. Fisyunov, & O. Krishnal</i>	85

Issue 2

Oxidative Power and Intracellular Distribution of Mitochondria Regulate Cell Oxygen Regime under Circulatory Hypoxia <i>K.G. Liabakh</i>	99
Effect of Agmatine on Actin Polymerization Dynamics in WGA-Stimulated Leukocytes under Diabetes Mellitus in Rats	109

<i>I.V. Brodyak, I.I. Bila, & N.O. Sybirna</i>	
Frequency-Dependent Modulation of Short-Term Plasticity of GABAergic Synaptic Transmission	119
<i>O.P. Kolesnyk, S.A. Fedulova, & M.S. Veselovsky</i>	
Impact of Experimental Chronic Social Stress on Biliary Bile Acid Content in Male Rats	127
<i>A.M. Liashevych, I.I. Tubalceva, Y.M. Reshetnik, O.V. Bondarenko, S.P. Veselsky, & Mykola Yu. Makarchuk</i>	
Inhibition of Mitochondrial Hydrogen Sulfide Production Worsens Heart Contractility and Enhances Sensitivity of Mitochondrial Permeability Transition Pore to Calcium	135
<i>A.Yu. Luchkova, Y.V. Hoshovska, R.A. Fedichkina, N.A. Strutynska, & V.F. Sagach</i>	
Efficiency of Bisphosphonic Acids in Female Rats with Experimental Osteoporosis	143
<i>V.V. Povoroznyuk, V.I. Pekhnyo, N.V. Grygorieva, O.M. Kozachkova, & N.V. Tsaryk</i>	
Nerve Growth Factor-Induced Changes in Adrenergic Modulation of Calcium Currents in Trigeminal Ganglion Neurons	153
<i>M.V. Telka, O.V. Rikhalsky, & M.S. Veselovsky</i>	
Effect of Magnetic Field on Blood Oxygen Transport Function during a Hydrogen Sulfide Donor Introduction	161
<i>V.V. Zinchuk & V.O. Lepeev</i>	
The Concept of Physiological Supersystems: New Stage of Integrative Physiology	169
<i>R.D. Grygoryan & V.F. Sagach</i>	
Epigenetics of Arterial Hypertension	181
<i>M.V. Khaitovich, A.P. Burlaka, & V.S. Potaskalova</i>	
<u>Issue 3</u>	
Flutamide-Induced Blockade of Androgen Receptors Affects the Liver External Secretory Function in Rats	195
<i>I.S. Chernuha, Y.M. Reshetnik, S.P. Veselsky, AG. Reznikov, & M. Yu. Makarchuk</i>	
Hypersexual Behavior and Hyperandrogenism in F1 Male Rats Caused by Dibutyl phthalate Treatment of Pregnant Females	203
<i>A.G. Reznikov, O.V. Sachynska, A.A. Limareva, O.A. Faliush, & I.G. Perchik</i>	
Effect of Chronic Postnasal Stress on Pro-and Antioxidant System and Changes in Autonomic Balance of Cardiac Rhythm in Rats	213
<i>O.V. Denefil & I.R. Mits</i>	
Endothelial Monocyte-Activating Polypeptide-II Improves Diastolic Heart Function and Vascular Relaxation in Type-I Diabetes Mellitus	221
<i>N.A. Dorofeyeva, G.G. Vorobyov, I.Y. Cherepaxxa, A.I. Kornelyuk, & V.F. Sagach</i>	
Predictors of Left Ventricular Myocardial Structural Remodeling in Patients with Atrial Fibrillation	229
<i>A. Goryachyi, Y. Karpenko, E. Levchenko, & A. Gozhenko</i>	
Effect of L-arginine and Corvitin on Oxidative-Nitrosative Stress in Skin of Rats Exposed to Excessive Sodium Nitrate	239
<i>D.O. Khmil' & V.O. Kostenko</i>	

Dynamics of Regeneration of Striated Muscles in Rats with Posttraumatic Reflex Contractures	247
<i>U.D. Matolych, V.V. Pankevych, & S.V. Ushtan</i>	
EEG Patterns of Differentiation of Visual Stimuli under Auditory Deprivation	257
<i>L.I. Yukhymenko, M. Yu. Makarchuk, & V.S. Lyzogub</i>	
Ways and Mechanisms of Transmembrane Exchange of Ca²⁺ in Mitochondria	265
<i>O.V. Kolomiets, Y.V. Danylovych, H.V. Danylovych, & S.O. Kosterin</i>	
<u>Issue 4</u>	
Systemic Toxic Dental Sealant-Induced Effect on Nervous Tissue in vitro	287
<i>O.A. Znachkova, I.V. Lushnikova, G.G. Skibo, M.Y. Antonenko, & N.V. Voitenko</i>	
Impact of Various Polyphenols on Disturbance of Cholesterol Metabolism under Insulin Resistance	295
<i>V.P. Fylymonenko & A.L. Zagayko</i>	
Target Correction of Mitochondrial Dysfunction in Parkinson's Disease by Capicor	303
<i>I.M. Mankovska, K.V. Rosova, O.O. Gonchar, V.I. Nosar, L.V. Bratus, T.I. Drevitska, I.D. Glazyrin, N.V. Karasevich, & I.M. Karaban</i>	
Changes in Ongoing Activity and Electrophysiological Characteristics of the Rat Retinal Ganglion Cells in Diabetes Mellitus	315
<i>N. Ya. Martyniuk, V. Yu. Maslov, H.E. Purnyn, S.A. Fedulova, & N.S. Veselovsky</i>	
Sex Characteristics of Hydrogen Sulfide Effect on Ischemia-Reperfusion in Rat Myocardium	325
<i>A.V. Melnyk, N.V. Zaichko, O.A. Khodakovskiy, & O.V. Khodakivska</i>	
Cardiohemodynamic Changes in Focal Cerebral Ischemia	335
<i>R.R. Sharipov, N.A. Dorofeyeva, & V.F. Sagach</i>	
Cerebral Hemodynamics and Electroencephalographic Pattern in Patients with Symptomatic Epilepsy at Combined Treatment with Transcranial Direct Current Stimulation	341
<i>K.V. Yatsenko</i>	
Physiological Endurance of Skeletal Muscle Increases under C₆₀ Fullerene Application before Physical Load	349
<i>T. Matvienko, D. Zavodovskiy, I. Mishchenko, K. Bogutska, Y. Prylutskyy, S. Paradizova, L. Bezuh, U. Ritter, & P. Scharff</i>	
Possible Mechanisms Underlying Association between Thyroiditis and Thyroid Papillary Carcinoma	363
<i>T.M. Myshunina & M.D. Tronko</i>
